

## **Remembering Judy Dodman**

Once upon a time, God called me to take my business and Church experiences, and begin a new ministry: Christ & the Workplace. Initially, this ministry centered on individual and group counseling, occasional newspaper articles, and special theme worship services.

Then, one day, Judy Dodman called me. She asked if I would post my work on the then-new diocesan website. I knew what a breadth of life and ministries she has. If she suggests something, good enough for me!

Over time, responses to the website articles came in from all over the world(!). The comments were many and varied, all giving thanks to God for the insights and ideas which readers received. Comments came from India, Pakistan, China and Formosa, Australia, countries in Europe, the U.S.A., and a few from Canada. Thanks be to God for how this ministry has blessed so many people; thanks be to Judy Dodman for being both the catalyst and idea person for this ministry!

Judy Dodman's recent death hits us hard. She was a great lady and faithful Christian in so many ways. And her ideas + encouragement helped to be Christ's inspiration to many people...worldwide! Thank you, Judy, for your blessings and inspirations to so many.

May Judy rest in peace, and her family be comforted with many happy memories, insights, and ideas.

Thank you, Jesus, for all the ways you bless us and our ministries. Thank you, Judy, for being Christ's inspiration for ministries and the workplace.

D. Browning
